Men and Money Make this Bank Secure.

THERE are two ways of measuring the strength and standing of a bank. In the first place money resources—capital and surplus—give it financial strength.

In the second place—and perhaps even more important—are men, the officers and directors. They give the bank character, determine and execute its policies.

This is a strong bank, a helpful bank because it has ample resources, and a personnel of proven character and ability.

No Increase in the Price of

Firestone

FULL-SIZE GUM-DIPPED

BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.

Lesson for May 24

SAUL BEGINS HIS GREAT CAREER

LESSON TEXT—Acts 9:1-31.
GOLDEN TEXT—"I determined not to know anything among you, save Jesus Christ, and Him crucified."—I Cor. 2:2.
PRIMARY TOPIC—How God Saved Saul From Danger.
JUNIOR TOPIC—Saul Preaching in Damascus.
INTERMEDIATE AND SENIOR TOPIC—Saul a Bold Preacher.
YOUNG PEOPLE AND ADULT TOPIC—Courage in Witnessing for Christ.

I. Saul Preached Christ in Damascus (vv. 19-22).

1. Saul's Fellowship With the Disciples (v. 19).

After Saul was baptized he remained certain days with the believers in Damascus (v. 19). How beautiful to think of the transformation which took place—the one who was so passionately bent on their destruction was now enjoying fellowship with the disciples.

2. Straightway Preaching in the Synagogues (v. 20).

Saul, like every one who is really converted, begins to tell of the newly found Savior. As soon as he is saved he goes to save others. His message concerned the deity of Christ. His doctrinal belief is summed up in six words, "He is the Son of God."

3. The People Amazed (v. 21).

They knew that the very one who had been the ringleader in persecuting the Christians in Jerusalem, and had come to Damascus for the express purpose of bringing them bound to the chief priests, was now passionately advocating that which he had so vehemently sought to destroy. When a man is saved there ought to be such a change as to cause the people to notice it.

4. The Jews Confounded (v. 22).

Saul retired into Arabia for three years. During this time he was taught the full truths of his ministry (Gal. 1:17-18). Saul increased in spiritual strength and confounded the Jews, proving that Jesus was not only the Son of God, but their Messiah.

II. Saul Escapes From the Jews (vv. 23-25).

He used the Scriptures with such skill that the Jews could not answer him. Finding that the argument was against them, the Jews took counsel how they might destroy Saul. So intent were they upon killing him that they watched the gates of the city day and night that they might take him. When this became known to the disciples, they let him down at night in a basket by the wall.

III. Saul Visits Jerusalem (vv. 26-29).

This journey to Jerusalem was in strange contrast with the one from Jerusalem to Damascus. The one was as a leader of an important expedition under the authority of the Jewish officers with the prospect of a place of distinction in the council of the Jewish nation. Now he is an outcast, disowned by his countrymen, and fleeing for his life. These are the outward circumstances, but he knows the fellowship of the Lord Jesus whom he once hated.

1. Suspected by the Disciples (v. 26).

The believers at Jerusalem had not heard fully about Saul's conversion. They knew nothing of his sojourn in Arabia, and his preaching at Damascus after his return. To believe they regarded him as a decoy. "Part of the penalty of wrongdoing is the difficulty of restoration to the good opinion of honorable men."

2. Barnabas' Confidence in Saul (v. 27).

Barnabas was a man filled with the Holy Spirit (Acts 11:24) and therefore able to discern the reality of Saul's conversion. He was in reality a "son of consolation" and here showed his kind spirit.

3. Saul in Fellowship With the Disciples (v. 28).

He was not content merely to visit with the brethren. He spoke boldly in the name of the Lord Jesus Christ.

IV. Saul Sent to Tarsus (v. 30).

A conspiracy similar to that one at Damascus was formed against Saul. When the brethren knew of it they sent him to Tarsus. Saul's life was in danger everywhere except among the Gentiles. He now is back to the place of his birth. The first and best place for one's testimony is in his home. Saul's conversion was typical of the conversion of the Jewish nation. Their eyes will be opened by a personal revelation of Jesus Christ to them, and when they accept Him as their Savior and Messiah, they will go forth as witnesses to the Gentiles.

VOL. XXXIX—NO. 16 APPOMATTOX, VIRGINIA, THURSDAY MORNING, MAY 28, 1925 ESTABLISHED 1892

VERA

The copious rain which fell Sunday, enabled our farmers to set their first planting of tobacco—many a tobacco plant, changed its "place of residence" on Monday, never to return to its old haunts.

On account of the extremely cool weather a great deal of the early corn had to be replanted.

Wheat in this section is looking wonderfully well; it is beginning to head out and the prospects are for a good crop.

Messrs. "Sam" Drinkard and Joel Coleman of Route 3 are building new residences.

A wild epidemic, we presume a form of "flu" is attacking especially the children, in this vicinity—we hope it will prove to be nothing serious.

Will you pardon me for correcting a typographical error in the Vera items last week? When speaking of the radio, you made me say W. B. R. R. when it should have been W. B. B. R. This station has a wave length of 272.2 meters. "Electrical transmission of intelligence in any form is sufficiently mysterious and only familiarity has deadened the feeling of awe with which the telephone was first regarded, in the most civilized countries", and now comes the radio to further tax one's susceptibilities.

"Through the silver mist
Of the blossom spray
Thrills the orioles:—list
To their joyous lay!
What, in all the world, they say
Is half so sweet—as May?"

FOREST VIEW

Farmers of this community are hard at it this a. m., planting tobacco. Plants are not so plentiful on account of the flea, corn is up and gardens looking very well, also wheat is looking pretty good.

Mr. and Mrs. J. A. Martin spent Sunday p. m. with Mr. and Mrs. A. S. Wooldrige. Mrs. Wooldrige is better after being indisposed for several days.

It is sad to read the deaths of so many of our good colored people who have died around and in your town the past few months Uncle Guss Watts, Uncle Neal Patterson and Aunt Sallie Craig. We hope their children will live to be as good as they were. Your correspondent knew them well.

Facts About the Tobacco Growers Cooperative Association

Number 2—SALARIES

The following extracts from the report of the investigating committee of State officials from Virginia North and South Carolina shows that the opponents of cooperative marketing have been talking "wildly" about salaries:

"We find that the general manager has twice voluntarily reduced his own salary, and that the salary listed for him in the budget for 1925-26 is but two-thirds that provided for in the contract under which he accepted employment with the Association in 1922. All others of more highly paid employees have taken reduction in salaries about commensurate with that of the general manager. Smaller reductions have been made in the salaries of other employees.

"The members of the Association must realize that their Association is conducting a big business amounting to from $25,000,000 to $35,000,000 annually, and that it takes a high type of man to run the various departments of such a big business. It appears that the present salaries of the highest paid employees of the Tobacco Growers Cooperative Association are not in excess of salaries being paid officers in similar positions with other big tobacco companies or other big cooperatives, and that this is a necessary expense attached to the marketing of tobacco under any system of marketing."

The [illegible] organization is $20,000 a year.

Compare this with the $75,000 of one of the "head men" in America of the Imperial Tobacco Company.
